First Premium Awarded by the Texas State Fair, the Celebrated "Arrow-Tie" being one of its Com-

petitors.

IN offering to princes the Utili-T.E., the following advantages are claimed for it: Simplicity of application, greater strength, both of the Tie and of the Band, close adjustment and freedom from slip, which prevent any expansion of the bale, and the impossibility of removing the Band without cutting it. The award of the HIGHEST PREMIUM by the Texas State Fair to the GRIP-TIE over the arrow and all other competitors, is simply an indorsement of the opinion expressed by all planters who have used it, as can be shown by letters and certificates in our possession. used it, as can be shown by letters and certificates in our possession.

Arrangements have been made for the manufacture of Bands of superior quality and in sufficient quantity to supply any demand, and for the present the price will be \$2.50 per bundle, of thirty Bands cach.

The recent reduction in the price of ties was probably due to the competition of the GRIP-TIE, and as we offer a superior article at the same price, we trust dealers and consumers will recognize our claim to a fair share of patronage.
